

CleanFUEL North America Limited Warranty

LPI[®] Fuel System

3 years/36,000 miles

Warranty Coverage applies to the GM 4500 cutaway chassis and W42 WORKHORSE chassis with the 6 liter engine equipped with the LPI[®] fuel system; 50 states certified by CFUSA with engine family designations ACLFF0300LPG, BCLFF0300LPG, BCLFE06.0G14 and ACLFE06.0AMK. This warranty is a supplemental limited warranty to your new GM engine equipped vehicle warranty and certain components unassociated to the LPI[®] fuel system may be covered by different manufacturers. This warranty provides coverage to correct any malfunction of the LPI[®] fuel system resulting from defects in materials or workmanship. The original manufacturer's warranty, GM or WORKHORSE, continues in force on all vehicle components except those replaced by the LPI[®] fuel system. Federal emissions warranty is 5 years/50,000 miles and California emissions warranty is 7 years/70,000 miles. For more specific information about EMISSIONS CONTROL SYSTEMS warranty, see the GM LIMITED WARRANTY MANUAL, WORKHORSE WARRANTY or call CFUSA at 877-234-1722. In California, new motor vehicles must be designated, built and equipped to meet the State's more stringent anti-smog standards. If your vehicle fails a SMOG CHECK inspection, all necessary repairs should be obtained through a CFUSA LPI[®] MASTER DEALER. If an emission related part malfunctions it will be repaired or replaced at no charge during the Emissions Warranty period.
