**WESTERN BUS SALES, INC.**

## **GET QUICK DELIVERY BEFORE THE SCHOOL YEAR ENDS!**

The ongoing economic conditions continue to challenge school bus operations. Don't have the cash in your transportation funding account until next year's budget? A lease purchase is an excellent way to take delivery of a bus and pay for it over time.

Current interest rates for five (5) year terms for school districts have been hovering around 5.0%.

Contact us to get a lease purchase quote that will allow you to take delivery of a bus now and delay your first payment until next fiscal year! Financing is offered through Blue Bird Financial Services, and allows your school district to take advantage of competitive rates at a one-stop-shop for your transportation needs.

**Contact us for more information, detailed specifications, and pricing for all vehicles listed here. Remember that all stock buses are subject to prior sale!**
