The bus made for tomorrow is available today. Foton's FCB-30', 35' and 40' buses can help you go green—ahead of schedule. Featuring the ultra-advanced Cummins ISL-G natural gas engine, our CNG-powered option not only meets EPA emissions standards up to 2014, it also sets a new benchmark for lower alternative fuel vehicle lifecycle costs. Foton buses don't stop there. Our FCB-Low Floor is Buy America-compliant and meets or exceeds all US Government standards on highway safety and emissions. All that, plus a sleek design, incredibly comfortable ride, full customization, unsurpassed drivetrain warranty, faster delivery times—and low prices that effectively reduce incremental costs.

The future is ready to roll.
